DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15, 27-31, and 49, drawn to compounds of formula I, and pharmaceutical compositions thereof, classified in class 544, subclass 89, 250, and 252.
 - II. Claims 16-26, and 50, drawn to process of making compounds of formula I, classified in class 544, subclass 89, 250, and 252.
 - III. Claims 32-48, drawn to various methods of treatment, classified in class 514, subclass 230.2, 267.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the compounds of formula I can be made by another and materially different process as evident by the teaching of **Lal et. al.** (J. Med. Chem., 1984, Vol. 27, pp. 1470-1480).

3. Inventions Group I and III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the compounds in group I can be used in a different process (arteriolar dilation or inhibition of platelet aggregation) as evident by **Lal et. al.** (cited above).
4. A telephone call was made to Dr. Dianne Rees on 3-24-03 to request an oral election to the above restriction requirement, but a written restriction was requested.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
